As a user I want to;
- Search for movies I can find a movie I want to watch for later or for info purpose.
- Filter the movies so I can narrow down my search.
- Get recommended films/series so that I can watch it later
- Be able to add movies to list, "will watch", "favourites" so I can remind myself of what to watch
- See information/biography about the movie i've selected so I can get information about it.
- Log in to get more features rather than a user that doesn't log in.
- Comment on movies (only by being logged in) so that I can express my opinion about the movies
- Get notifications for upcoming movies or series.
- Be able to filter movies i've already watched so It will be easier to search for different movies
- Manage my settings, so that I can e.g change to "Day/Night mode"
- Manage my account settings so that I can change account settings related problems.
